

Breathe Acting Studio

8-Week “GENRE SCENES” Acting Intensive w/ Maurice Moore

This 8-week session centers around actors working on “Genre Specific Scenes” such as: *Period Pieces, Romance, Horror, Psychological Thrillers...and more.* Maurice will push actors to explore and create strong 3-Dimensional character while finding “truth” within each moment regardless of genre. Through scene work, film study, and improvisation exercises actors will understand the importance of Physicality, Language, Connection and storytelling from each genre perspective! Not to mention...It’s just **FUN** for actors to play in these worlds!

As a theater trained actor, Maurice’s teachings are based in strong technique & fundamentals. “My job is to build your arsenal of skills and make them readily accessible. I’m able to accomplish that by working with actors in what I call the “5 elements to truth.”

“Understanding, Connection, Physicality, Improvisation & Storytelling!”

“BREATHE” is an extremely safe environment for actors to take creative risk & open up their imagination. This allows actors to push beyond their limits and realize their maximum potential.

Maurice Moore has more than 25 years of experience as an actor both on stage and in film. He is trained in and teaches techniques developed by Stanislavsky, Meisner & Uta Hagen. He also brings his 20 years of Improv training into a class that’s filled with FUN, DISCIPLINE and PERSONAL ACHEIVEMENT!!

Maurice Moore and the **“Breathe” Acting Studio** is recommended by respected Agents, Casting Directors and Actors in Austin, Los Angeles, New York and Atlanta.
